PUBLISHERS' NOTICE.

THE object of the present volume is, to place within the reach of Merchants, Manufacturers, and Professional men, better facilities for conducting Epistolary Correspondence, making and receiving Consignments, and the purchase and sale of Goods.

More than eight months since we commenced preparing a BUSINESS DIRECTORY for each of the New England States. We were then, as now, strong in the belief that the Mercantile and Manufacturing Interests of New England demand the annual publication of such a volume. No work of the kind, embracing an equal extent of territory, has ever been attempted. In the plan and arrangement of our work we have been obliged to launch our bark on unknown seas, without chart, compass, or the labors of others for a guide. Such a course has subjected us to all the difficulties, obstacles, and delays, necessarily attending all new undertakings.

All the information for our work has been collected by the most competent men to be procured, who have carefully canvassed every town and city, and called personally on those whose names are inserted in the work. Many of the names to be found in the work have been procured by a direct journey of ten, fifteen, and even twenty miles, and in many instances at an expense of several dollars.

By the special request of a large portion of the business community, the work has from time to time been extended much beyond the original plan. This has caused some months delay in its publication, but has greatly increased its value.

Particular attention is invited to the style of maps given in the work, which, taken in connexion with the Tabular Gazetteer of Towns by Counties, is thought much more convenient and valuable for business purposes than any now in use.

The orthography has been made as correct as possible, under the circumstances. But the orthography of names is so difficult, that we shall not be surprised to learn of some inaccuracies. Corrections in the orthography will be made from year to year, and no pains nor expense will be spared to render the work correct in every department.

In our intercourse with the business portion of the community we have found many strong friends who have afforded us much valuable aid and assistance, for which we return our sincere thanks. Hoping that the anticipations of all may be more than realized in the first volume of our Directory, we submit it to the public for inspection.

WINDSOR.	
Woodstock, fourth Tuesday in May, and last Tuesday in November.	

The judiciary powers of the State are vested in a Supreme Court, consisting of six judges. Each County Court is composed of one judge of the Supreme Court, and two assistant judges for each county. All of the judges and justices are chosen annually by the legislature.

Public Institutions.

Common Schools.—In the State there are 2,276 school districts; and 79,757 children between the ages of 4 and 18 years. Public moneys raised for schools, \$71,177 27,—averaging \$1 18 to each scholar. In 1845, the school fund was abolished, to pay the State debt.

Vermont Asylum for the Insane.—Wm. H. Rockwell, M. D., Superintendent. The buildings are now enlarged to accommodate 300 patients. Whole number admitted since the opening of the institution, about 1,100; of these, more than 42 per cent. have recovered. Died, about 8 per cent. of the whole number admitted.

Terms of admission, \$2 00 per week for the first six months, and \$1 50 afterwards. Where insanity is connected with epilepsy or paralysis, \$2 50 will be charged. Patients not received for a less term than three months. Patients from other States received on the same terms.

State Prison, Windsor.—Hiram Harlow, Superintendent; Thomas Kidder, Chaplain. Average number of convicts, about 75. Annual expenditure, about \$5,500. Annual income, nearly \$4,000.

BUSINESS REGISTER.

To give correct business information, for the benefit of the business community, is the object for which we labor. To better accomplish this, we have engaged to distribute among Merchants, Manufacturers, and Consumers, throughout the United States, more than one hundred thousand copies of the following Register. In its columns you will find the address and business of one or more firms of importers and wholesale dealers in each branch of business. We have placed in our Register the names of such Firms only as we can recommend, selecting those who keep constantly on hand large supplies of goods, and where orders from all parts of the country will be received and promptly answered, on terms satisfactory to the purchaser. Further information will be given by those in our employ, who will, during the year, call on most of the principal merchants and manufacturers.

THE largest, best, and cheapest **DICTIONARY**, in the English Language, is confessedly,

WEBSTER'S,

the entire work, unabridged, in 1 vol. Crown Quarto, 1452 pp., with portrait of the author, Revised by Professor Goodrich, of Yale College. Price, \$6.

"The most COMPLETE, ACCURATE and RELIABLE Dictionary of the Language," is the recent testimony given to this work by many Presidents of Colleges, and other distinguished literary men throughout the country.

"Containing three times the amount of matter of any other English Dictionary compiled in this country, or any Abridgement of this work, yet

"Its definitions are models of condensation and purity.—The most complete work of the kind that any nation can boast of."—Hon. Wm. B. Calhoun.

"We rejoice that it bids fair to become the standard Dictionary to be used by the numerous millions of people who are to inhabit the United States."—Signed by 104 Members of Congress.

SOFAS.—Patented 1848.—The Patentee of this Sofa was the first in this country who introduced the Spring Seat Sofa, which has taken the place of all other sofa seats throughout the United States. The present is a greater improvement, and will be as extensively used when known. It is a handsome, easy, Spring Sofa, and also a wide good spring Bed, which by those who use them, are preferred to any other bed now in use, and is afforded at a price which will be seen at once, makes them an article of economy as well as a luxury. The change from a spring sofa to a spring bed, can be made by any one, even a child, in one minute, with head and foot board, if desired, and is as easily returned to a sofa. They are not like the sofa beds generally for sale and in use, which require time and strength to arrange them for use, and are then only an apology for a bed or sofa, being hard and uncomfortable, and growing more so by use, as they must in the nature of the case. This is a perfect Sofa, without the least appearance of a bed, when used as a sofa—and when used for a bed, elastic and easy, and continuing so as long as used, securing to those who buy them a good sofa, and a good spare bed, at a small advance in cost above the price of a sofa or a bed—the place of both of which it will supply. **S. & R. BLAIR**, 25 Orange street, New Haven, Conn.
